Sprinkler Systems

Consortium Procurement and WPA have collaborated to create a Sprinkler framework, specifically for Wales.

With extensive fire safety standards and regulations in place, it has never been more crucial for Welsh organisations to remain invested in their fire safety. The framework offers a fully OJEU compliant route to market for all Welsh public sector bodies, looking for a comprehensive Sprinkler Systems solution.

The framework agreement provides the following solutions for Sprinkler Systems:

- Design and Manufacture
- Supply
- Installation
- Maintenance

Organisations can call off for separate elements or have a fully comprehensive approach. The appointed suppliers cover the whole of Wales:

- Domestic Sprinklers
- Openview
- Ventro

Key framework information:

- Live until March 2022
- Call off via Mini Competition only

What to do next?
